Introduction

1 minute

In this module, you'll be introduced to the core architectural components of Azure. You'll learn about the physical organization of Azure: datacenters, availability zones, and regions; and you'll learn about the organizational structure of Azure: resources and resource groups, subscriptions, and management groups.

Learning objectives

After completing this module, you'll be able to:

- Describe Azure regions, region pairs, and sovereign regions.
- Describe Availability Zones.
- Describe Azure datacenters.
- Describe Azure resources and Resource Groups.
- Describe subscriptions.
- Describe management groups.
- Describe the hierarchy of resource groups, subscriptions, and management groups.

Next unit: What is Microsoft Azure
